Infectious Complications In Cancer Patients (Cancer Treatment And Research)

Synopsis

While advances in both the treatment of cancer and the management of its complications have led to significant improvement in patient survival, infections remain a significant cause of morbidity and mortality in patients with neoplastic disease. In this patient population, infection risk results from a complex interplay between the host's underlying immunodeficiencies, local tumor effects and treatment-induced immunosuppression. New chemotherapeutic approaches and antimicrobial prophylaxis and treatment practices continue to shape the spectrum of infections in these patients. Clinicians who treat infections in cancer patients are continually challenged by the emergence of new pathogens and by the increasing antimicrobial resistance of established ones. The aim of this book is to emphasize unique aspects of management of infectious diseases in the cancer patient. With the increasing complexity of this patient population, optimal management requires a multidisciplinary approach and this fact is fully reflected in the contributions, all from recognized authorities in the field. Ultimately, it is hoped that this volume will assist specialists in infectious diseases and haematology/oncology in the diagnosis, management and prevention of infection and optimization of the overall care of patients with malignancies.

Book Information

Series: Cancer Treatment and Research (Book 161)

Paperback: 511 pages

Publisher: Springer; Softcover reprint of the original 1st ed. 2014 edition (October 7, 2016)

Language: English

ISBN-10: 3319380648

ISBN-13: 978-3319380643

Product Dimensions: 6.1 x 1 x 9.2 inches

Shipping Weight: 1.8 pounds (View shipping rates and policies)

Best Sellers Rank: #947,630 in Books (See Top 100 in Books) #128 in Books > Textbooks > Medicine & Health Sciences > Medicine > Clinical > Hematology #197 in Books > Medical Books > Medicine > Internal Medicine > Hematology #369 in Books > Textbooks > Medicine & Health Sciences > Medicine > Clinical > Infectious Diseases
